What is a Health Care Spending Account?

A Health Care Spending Account is a pre-determined amount of money provided to employees at the beginning of each benefit year for coverage of their medical and dental expenses.

This amount is held in trust. Claims are submitted and reimbursed in a similar fashion to a traditional benefits plan.

Eligible expenses are reimbursed at 100% up to the total dollar amount available in the HCSA.

A Health Care Spending Account allows employers to cost-effectively offer extra coverage - with more flexibility - for employees.

Differentiate between employees by class and reward key employees with enhanced coverage.
